Past performance is not a guarantee or a reliable indicator of future results. Please see the Reference section for important disclosures including risk, net returns and benchmark descriptions. The value of investments can go down as well as up. Where overseas investments are held the rate of currency exchange may cause the value of investments to fluctuate. If applicable, investments in emerging markets are by their nature higher risk and potentially more volatile than those inherent in some established markets and non-USD securities are converted to USD using a spot rate conversion. All return periods longer than one year are annualized. Source: PGIM Fixed Income. Performance and statistics as of December 31, 2020, shown in USD unless otherwise noted. Excess returns are over the stated composite benchmark. Net returns reflect the deduction of investment advisory fees and other expenses. Gross excess returns may reflect rounding differences. Past performance is not a guarantee or a reliable indicator of future results. Please see the Reference section for important disclosures including risk, net returns and benchmark descriptions. The value of investments can go down as well as up. Where overseas investments are held the rate of currency exchange may cause the value of investments to fluctuate. If applicable, investments in emerging markets are by their nature higher risk and potentially more volatile than those inherent in some established markets and non-USD securities are converted to USD using a spot rate conversion. All return periods longer than one year are annualized. Source: PGIM Fixed Income. Performance and statistics as of December 31, 2020, shown in USD unless otherwise noted. Excess returns are over the stated composite benchmark. Net returns reflect the deduction of investment advisory fees and other expenses. Gross excess returns may reflect rounding differences. All Non-USD securities are converted to USD using a spot rate conversion. PGIM Fixed Income's Composite Performance Returns available upon request. There can be no guarantee that these objectives will be met. ¹The Emerging Markets Debt strategy benchmark is the JP Morgan EMBI Global Diversified Index. Prior to March 1, 2006, the benchmark was the JP Morgan Emerging Markets Bond Index Plus.
