

ENVIRONMENTAL, SOCIAL AND GOVERNANCE (“ESG”) POLICY

BACKGROUND AND RATIONALE

PGIM Real Estate, the real estate investment management business of PGIM, has been redefining the real estate investing landscape since 1970. Combining insights into macroeconomic trends and global real estate markets with excellence of execution and risk management, PGIM Real Estate's tenured team offers to its global clients a broad range of real estate equity, debt, and securities investment strategies that span the risk-return spectrum and geographies.

As an investment adviser, we act as a fiduciary, and our primary responsibility is to add economic value to our clients' portfolios over the long-term, within the constraints of applicable investment management agreements and ongoing market conditions. At PGIM Real Estate, we believe that taking into consideration environmental social and corporate governance (ESG) factors can positively impact this long-term economic performance.

OUR ESG MISSION STATEMENT

PGIM Real Estate believes that doing the right thing for our people, the environment and our communities leads to better results for all our stakeholders. We strive to embed environmental, social and governance (ESG) best practices throughout our real estate investment, asset management, risk management and talent management processes.

Through our commitment to responsible and sustainable real estate investing and management, we seek to deliver enhanced risk-adjusted returns for our investors, become a landlord of choice and maintain our position as a practitioner of good global citizenship to all our stakeholders - investors, partners, employees, and the communities in which we reside and invest.

SCOPE OF POLICY

This policy will apply to the global funds managed by PGIM Real Estate. This policy is subject to all applicable local laws and regulations. In cases where PGIM Real Estate does not have a controlling interest in the fund or a particular investment, PGIM Real Estate will use its position to influence and encourage appropriate ESG practices.

OUR ENVIRONMENT

At PGIM Real Estate, our environmental commitment is a global one, shared by all associates in all regions. We are committed to reducing our energy and water use, waste production and greenhouse gas emissions. By applying responsible resource reduction strategies, we believe we enhance our environmental performance as well as our investment performance.

As stewards of the environment in and around our assets, we believe we have an obligation to educate and inform our stakeholders. To that end, we engage our tenants, business partners, and service providers in initiatives to reduce resource use and waste, as well as improve environmental quality. We have developed Sustainable Standard Operating Guidelines (SSOG®), which help our property managers identify opportunities to cut costs, address human health and improve efficiencies by "greening" their operations. We publish these annually to our asset management teams and offer them to all our property managers for use and implementation as appropriate. We advocate the use of materials, products, construction methods and operating practices that:

- Consider impacts on human health
- Diminish the quantity of resources used and waste generated over the property life cycle including through the use of sustainable and recycled materials, and renewable energy
- Protect the habitat and the environment, and preserve biodiversity
- Avoid toxic substances and reduce CO2 emissions.

We submit a large number of our buildings and developments to voluntary green certification such as Energy Star, LEED, NGBS, DGNB, BREEAM, HQE, CASBEE, GRESB, Greenmark and other platforms. We seek to locate our offices in buildings with an environmental certification where it is practicable and reasonable to do so.

We offer training on environmental sustainability to our investment professionals.

We will continue to benchmark and improve the greenhouse gas emissions, solid waste production, and energy and water consumption of our properties; identify investment candidates whose environmental performance can be quickly and economically improved; and engage with thought leaders in the field of sustainability so that we can capitalize on opportunities to make our portfolios greener and increase value for our investors.

OUR COMMUNITIES

Our parent company, PFI, engages with internal and external stakeholders to support its achievement of purpose, helping people to grow and protect their wealth. PFI has always maintained a strong commitment to the communities where it operates and invests, and through its Corporate and Community Engagement team, has a long history of growing and supporting communities globally. PFI and PGIM Real Estate employees volunteer time, skills and resources to community organizations and initiatives that increase human potential and individual self-sufficiency.

PGIM Real Estate encourages its employees to invest in their communities by taking advantage of important PFI benefits. In each region, there is an annual paid volunteer day. For example, in 2018 our Singapore team worked with the Singapore Association for the Visually Impaired. In the United States, there is a Matching Gifts Program through which Prudential matches eligible employee gifts, one-to-one, up to \$5,000 per employee per calendar year.

We strive to meet the needs of a diversity of users in our communities and investments, and to incorporate their feedback into how we conduct our business. In the United States, we comply with the Americans with Disabilities Act (ADA), providing appropriate access to people with disabilities, and other laws as appropriate. Outside of the United States, we strive to apply Universal Design Principles and other laws as appropriate. We annually survey a segment of our tenants in our office, industrial and retail properties using a professional third-party research and performance benchmarking organization. In addition to the valuable ESG data obtained, these surveys provide our portfolio managers and asset managers with independent feedback regarding tenant satisfaction and perspective on our property manager's performance.

Responsible Investing is a key component of PGIM Real Estate's Environmental, Social and Governance (ESG) framework. In the day-to-day operations of our business, there may be certain decisions that should be considered in the context of the ESG framework and not just in accordance with the standard regional investment Delegation of Authority. These matters can be raised by any of our stakeholders including staff, tenants, partners, clients and the broader communities in which we operate. The matters are escalated for further review by the global senior leadership team of PGIM Real Estate and are resolved with appropriate consideration of the community and societal issues, as well as the financial consequence.

OUR STAFF

At PGIM Real Estate, our people are at the heart of what we do. Each employee plays a vital role in furthering our legacy of innovation and strengthening our culture of performance excellence. We are committed to attracting, developing and retaining the best people in pursuit of our goal to be the real estate employer of choice.

Our talent engagement programs are organized into four main categories: i) Rewards and Recognition, ii) Benefits and Wellness, iii) Culture and Work Environment, and iv) Professional and Career Development.

Rewards and Recognition

Effectively recognizing and rewarding the accomplishments of our employees is a key component of our talent engagement strategy. We have established and articulated philosophies as well as clear and transparent merit-based processes for promotion and compensation. We actively promote the recognition of our staff members through both internal and external programs, including our annual PGIM Real Estate Rock Star Awards.

Benefits and Wellness

We believe that we have a responsibility to provide our employees and their families with a competitive benefits package that delivers flexibility and financial security. We also provide programs which encourage employees to make healthy choices and achieve their best across all five dimensions of health – physical, emotional, social, spiritual, and financial. Work-

life effectiveness is actively promoted to support individuals in balancing work and personal commitments through programs and benefits such as flexible working arrangements and our fully paid parental leave for both mothers and fathers.

Culture and Work Environment

One of PGIM Real Estate's guiding principles is to build a strong and durable organization, focusing on promoting a culture of interdependence, accountability and inclusion.

PFI's Core Values are the principles that guide us. For example, Prudential's Code of Conduct, "Making the Right Choices," holds all employees accountable for demonstrating a strong moral compass in every aspect of their work in every part of the world. All PGIM Real Estate employees are regularly trained and refreshed on the policies, guidelines and procedures relevant to their business function. Additionally, employees have access to a 24/7 Global Business Ethics Help Line and an anonymous online reporting form to which they can escalate any legal or ethical concerns.

We believe that having diversity of perspective and experiences at PGIM Real Estate makes us better investment managers. PGIM Real Estate's Inclusion & Leadership Network (ILN) is an internally led initiative whose mission is to foster a workplace that attracts, develops, retains and elevates diverse talent through an inclusive organizational culture. It seeks to fully integrate diversity and inclusion programs into the talent initiatives and business strategy of PGIM Real Estate to support the career development of employees, and promote training, policies, procedures and management styles that mitigate unconscious bias.

PFI is equally committed to diversity and inclusion as evidenced by its Commitment to Diversity statement which has been signed by the senior most executives of the Company. PFI actively seeks out employees, vendors, and business associates from a deep and diverse pool of accomplished professionals and strives to make Prudential an employer of choice through initiatives that support, inform, develop, and increase the awareness and sensitivity of its workforce.

Professional and Career Development

Supporting the ongoing growth and development of our employees is key to driving the engagement and job satisfaction of our employees. At the core of our employee development programs is a performance management program which focuses on ensuring expectations are clear and properly linked to reward. Embedded in this is a clear definition of the skills and competencies required to effectively perform various job functions at different levels, as well as a forum for feedback and coaching focused on employee development.

PGIM Real Estate provides ongoing training and development opportunities for our employees which include a range of options from web-based and in-person training courses offered by PFI, hosting external training vendors with specific industry and/or functional expertise; sponsoring employee attendance at industry conferences and seminars; and developing our own business lead custom training solutions.

Our culture of mobility – enabling us to provide formal development opportunities for, on average, 25% of our staff members each year - is one of our greatest competitive advantages. In addition to formal training opportunities, internal transfers and rotations, international assignments and geographic relocation, networking and community involvement enable employees to strengthen current performance and develop skills that prepare them for broader roles within the company.

OUR VENDORS

The PFI Vendor Code of Conduct and Terms of Engagement document outlines our expectations for businesses and individuals wishing to do business with PGIM Real Estate. We are committed to doing business with firms that align with our values and adhere to our policy standards.

Construction contractors providing services to our investments are retained by PGIM Real Estate, our partners, or other general contractors. In circumstances where we control the retention either directly or indirectly, we have adopted a Responsible Contracting

Policy which seeks to promote responsible practices by our contractors in the United States including fair wages and benefits. We endorse small business development, including minority and women-owned businesses, market competition, and control of operating costs.

OUR GOVERNANCE

PGIM Real Estate operates within a framework of policies, procedures, principles and practices that were established by our parent company, PFI, to ensure that all PFI companies embrace corporate responsibility, accountability, fairness, and transparency in their stakeholder relationships. PFI supports the Task Force of Climate-related Financial Disclosures (“TCFD”) disclosure recommendations.

ESG issues are an important part of PGIM Real Estate’s investment analysis and due diligence processes, including a robust and rigorous underwriting regimen, risk management evaluation and approval processes. We assess our investments for natural hazard risks and anti-money laundering concerns. We require background checks on our partners and any potential conflicts of interest are identified and vetted. Additionally, we undertake a regulatory review to ensure every property will comply with all local and national laws, including sustainability standards.

Our funds’ terms include many of the Institutional Limited Partners Association (IL-PA) Principles, Version 2.0.

We provide accurate and relevant information to our stakeholders about our products and services and deal promptly, respectfully and appropriately with client requests and concerns.

We avoid, mitigate and/or disclose potential, actual and apparent conflicts of interest. We disclose our potential conflicts annually in our Form ADV filings.

HUMAN RIGHTS

PFI (inclusive of PGIM Real Estate) is committed to the protection and promotion of human rights throughout our company, and in all aspects of our business dealings around the world.

Our policies address anti-discrimination, anti-harassment, non-retaliation, human trafficking and slavery, fraud prevention, data security, and data privacy, the company does not tolerate discrimination, harassment, retaliation, human trafficking/slavery, or corruption in any form. Our culture of respect extends beyond our employees, and includes all individuals, including but not limited to independent contractors, interns, volunteers, agents, vendors, clients and customers. Prudential’s policies require compliance with all local laws regarding employment and labor, and the rights of both employees and the individuals with whom we conduct business around the globe. The company provides multiple avenues to report any concerns of inappropriate conduct without fear of retaliation, including an Anonymous Global Business Ethics and Integrity Help line which is available to both internal and external parties.

Consistent with our dedication to human dignity for all, PFI acknowledges and adheres to the UN Human Rights Council’s Guiding Principles on Business and Human Rights. Specifically, Prudential is fully committed to supporting and respecting the protection of internationally proclaimed human rights, and in ensuring the company is not complicit in any abuse of human rights around the globe.

PFI works to ensure its policies and practices foster a work environment that upholds the highest standards of integrity, promoting responsible citizenship globally. Simply put, we are committed to always making the right choices.

OUR PROGRESS AND REPORTING

PGIM Real Estate is transparent with our stakeholders in outlining our ESG program and its progress across our funds. We report annually to our investors on our ESG progress in the following ways:

Principles for Responsible Investment – PRI

We have been a signatory to the PRI since 2009. We report annually on our progress in achieving compliance with PRI. The PRI Reporting and Assessment Survey allows our clients and stakeholders to review our progress in implementing the PRI Six Principles.

Global Real Estate Sustainability Benchmark - GRESB

We report our ESG performance at the vast majority of our assets under management annually. Our reporting criteria states that the fund must be actively marketed, have assets under management (AUM) of more than \$US1 billion, or be the subject of an individual investor request to be applicable. We aim to report on at least two funds from each of our global regions. Our clients and stakeholders can review our ESG performance and compare us to those of our industry peers that also report.

PGIM Real Estate Annual ESG Report

This report highlights our efforts to operate environmentally responsible and sustainable real estate investments while managing our business.

Other Communications

Our stakeholders can read and learn about our ESG performance using our website at www.pgimrealestate.com where we publish our ESG materials.
